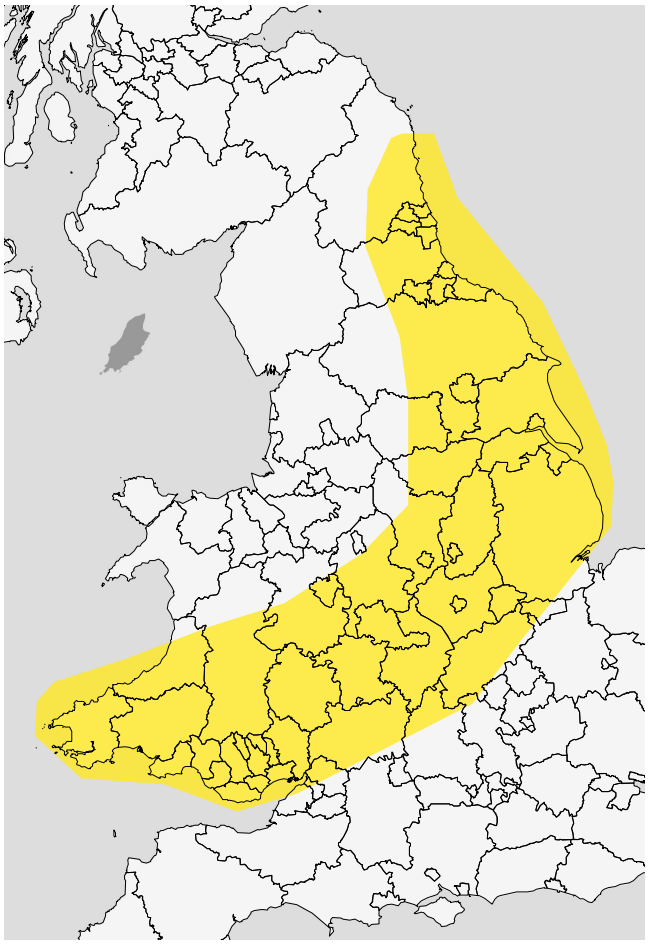
Yellow warning
Wind

Between
12:00 Tue 23 Jan 2024 and
15:00 Wed 24 Jan 2024



A spell of strong winds associated with Storm Jocelyn is expected to affect the area leading to some localised disruption.

What to expect

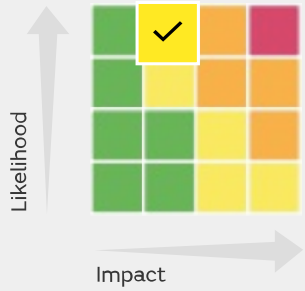
- Some delays to road, rail, air and ferry transport expected
- Some bus and train services affected, with some journeys taking longer
- Delays for high-sided vehicles on exposed routes and bridges
- Coastal routes, sea fronts and coastal communities will be affected by spray and/or large waves

Further details

A spell of strong winds associated with Storm Jocelyn is expected to develop across this region during Tuesday afternoon, peaking overnight into Wednesday morning, before easing across most areas by midday. However, winds are likely to remain strong across and just to the east of the Pennines until early Wednesday afternoon.

Peak gusts of 45-55mph are likely inland, perhaps 65mph on some exposed coasts.

What should I do?



High likelihood of low impacts

Further Details (continued)

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you are on the coast, stay safe during stormy weather by being aware of large waves. Even from the shore large breaking waves can sweep you off your feet and out to sea. Take care if walking near cliffs; know your route and keep dogs on a lead. In an emergency, call 999 and ask for the Coastguard.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.
